

VIRGINIA'S HARD TO COUNT COMMUNITIES

AGING POPULATION, AGES 65 AND OVER

AGING POPULATION VIRGINIA

As of 2018

are ages 65 and up.⁽¹⁾

By 2030

ONE IN FIVE VIRGINIANS

will be aged 65 and up.⁽³⁾

Counties where **more than 30%** of their population will be aged 65 and up.⁽³⁾

- Lancaster
- Northumberland
- Middlesex
- Matthews
- Highland

AGING POPULATION VIRGINIA

In less than two decades, older adults are **projected to outnumber kids** for the first time in U.S. history.⁽²⁾

2020 CENSUS

The growing senior population has an impact on health care providers and senior support services who must prepare for the increase in demand for their services.⁽³⁾

EXAMPLES OF SERVICES

- Medicaid/Medicare
- Home Energy Help
- Meals Assistance
- Social Security

CHALLENGES

Technological

- The 2020 Census will be the **first Census to be taken mainly online**. But access to, or familiarity with, computers is not always a given in low-income neighborhoods, for the elderly, and among English language learners.⁽⁵⁾
- As of 2015, only **58 percent** of adults 65 and older use the internet.⁽⁴⁾

Misconception

- About **41% of people** aged 50 and older incorrectly believe that participation in the census is not required by law.⁽⁶⁾
- This lack of participation can lead to **greater undercount numbers**.⁽⁶⁾
